Reasonable accommodations will be provided upon request. Please contact Lisa Yang (916) 822-7516, 10 days prior to each session.

#### **Keynote Speaker**

Carlos Ramos, Director and State Chief Information Officer  
Department of Technology  
Carlos Ramos was appointed by Governor Jerry Brown in 2011 to serve as Director of the California Department of Technology. He is a member of the Governor's Cabinet and the Chief Information Officer for the State of California. In his current role, Carlos advocates the use of technology to facilitate government services and citizen engagement. That mindset guides many of his technology priorities today, including a robust collection of mobile apps for the public. It is his vision and innovative thinking that lead him to be recognized as one of Government Technology Magazine's Top 25 Doers, Dreamers and Drivers and the 2015 recipient for StateScoop's Golden Gov State Executive of the Year for making a significant difference in state and local government.
