

LEADERSHIP PERSPECTIVES

Greetings, I am Nicole Rowe and I intern for the APSEA Symposium Steering Committee. I accepted this wonderful opportunity to intern because I wanted to take advantage of the rare chance to grant appreciation for the leaders within government, those who are an instrument to the operation of this lovely state. I believe leadership is the voice of integrity and the spirit of common purpose. Leaders bring to life the innate ability to evolve within a forever changing and complex environment. As a common citizen, I felt obligated to acknowledge the responsibility of our leaders and work duly to award them.

Nonetheless, not only does the APSEA symposium recognize those who have exemplified extraordinary leadership, it will also share knowledge and diverse perspectives to addressing ordinary challenges with effective approaches to navigating through our changed world.

Wholeheartedly, I am thrilled to participate in this event for my own growth development. I highly encourage others to take complete advantage of this quintessential opportunity for significant networking and professional development.

Sincerely,

L. Nicole Rowe, MSW
APSEA Symposium Intern
